Notices

Knowledge and best practice in this field are constantly changing. As new research and experience broaden our understanding, changes in research methods, professional practices, or medical treatment may become necessary.

Practitioners and researchers must always rely on their own experience and knowledge in evaluating and using any information, methods, compounds, or experiments described herein. In using such information or methods they should be mindful of their own safety and the safety of others, including parties for whom they have a professional responsibility.

To the fullest extent of the law, neither the Publisher nor the authors, contributors, or editors, assume any liability for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions, or ideas contained in the material herein.

MATLAB® and Simulink® are trademarks of The MathWorks, Inc. and are used with permission. The MathWorks does not warrant the accuracy of the text or exercises in this book. This book's use or discussion of MATLAB® and Simulink® software or related products does not constitute endorsement or sponsorship by The MathWorks of a particular pedagogical approach or particular use of the MATLAB® and Simulink® software.

Library of Congress Cataloging-in-Publication Data

Introduction to biomedical engineering / [edited by] John Enderle, Joseph Bronzino. – 3rd ed.
p. ; cm.

Includes bibliographical references and index.

ISBN 978-0-12-374979-6 (alk. paper)

1. Biomedical engineering. I. Enderle, John D. (John Denis) II. Bronzino, Joseph D., 1937-
[DNLM: 1. Biomedical Engineering. QT 36]
